

Dear Mayor Leppert, Environmental Protection Agency (EPA) Regional Administrator Greene, and North Central Texas Council of Governments (NCTCOG) Executive Director Eastland,

Environmental improvement is achieved through cooperative action. Ferrier Custom Homes, Ferrier Builders, Inc., is pleased to partner with the City of Dallas, US EPA, and NCTCOG to work towards implementing sustainable practices that help improve Dallas' air quality. Through the Dallas Sustainable Skylines Initiative, Ferrier Custom Homes, Ferrier Builders, Inc., pledges to support one or more of the following project categories:

- Enhancing central city livability
Brief project description:
Proposed measurement of results:
- Promoting green buildings and developments
Brief project description: Participate in events for DSSI to expand public awareness and interest in affordable, green homes, and provide technical support to Habitat for Humanity, as needed, with their building projects.
Proposed measurement of results: number of citizens reached through educational events; quantification TBA for projects with Habitat for Humanity
- Implementing and promoting renewable energy/energy efficiency
Brief project description: Advise Habitat for Humanity and DSSI on the most cost-effective energy efficiency options for affordable homes, and work with EPA and Habitat for Humanity to optimize the energy efficiency and green level of Habitat's homes.
Proposed measurement of results: TBD with EPA
- Reducing emissions from stationary and area sources
Brief project description:
Proposed measurement of results:
- Reducing air emissions from off-road equipment
Brief project description:
Proposed measurement of results:

As members of the Dallas community, we recognize our responsibility to be good environmental stewards and manage our environmental impacts in a way that provides for a sustainable future. We look forward to building a sustainable Dallas with you.

Sincerely,

Don Ferrier, President
Ferrier Custom Homes, Ferrier Builders, Inc.

The **Dallas Sustainable Skylines Initiative** is a joint effort with the primary goal of implementing sustainable practices to help improve Dallas' air quality. Through Initiative-guided voluntary projects, the Initiative aims to achieve measurable environmental benefits--particularly the reduction of air emissions, but also the significant improvement of water and land quality--while simultaneously contributing to the vitality of the Dallas economy and the quality of life of Dallas' citizens. In the longer term, the Initiative aims to create a successful and reproducible program that serves as a model for other cities.
