

February 3, 2009

Dear Mayor Leppert, Environmental Protection Agency (EPA) Regional Administrator Greene, and North Central Texas Council of Governments (NCTCOG) Executive Director Eastland,

Environmental improvement is achieved through cooperative action. Perpetual Energy, LLC is pleased to partner with the City of Dallas, US EPA, and NCTCOG to work towards implementing sustainable practices that help improve Dallas' air quality. Through the Dallas Sustainable Skylines Initiative, Perpetual Energy, LLC pledges to support one or more of the following project categories:

- Enhancing central city livability
Brief project description:
- Promoting green buildings and developments
Brief project description:
Proposed measurement of results:
- Implementing and promoting renewable energy/energy efficiency
Brief project description: Educating children about how they can contribute to energy efficiency and sustainability in their community. This can be achieved through classroom exhibitions, seminars, and dialogue. Hopefully, this will lead them to make changes within their own families, their schools, and communities.
Proposed measurement of results: Perpetual Energy will work with one school per quarter and increase the following year to 3 schools per quarter.
- Reducing emissions from stationary and area sources
Brief project description:
Proposed measurement of results:
- Reducing air emissions from off-road equipment
Brief project description:
Proposed measurement of results:

As members of the Dallas community, we recognize our responsibility to be good environmental stewards and manage our environmental impacts in a way that provides for a sustainable future. We look forward to building a sustainable Dallas with you.

Sincerely,

Sharon Price
Strategic Accounts Manager
Perpetual Energy, LLC

The **Dallas Sustainable Skylines Initiative** is a joint effort with the primary goal of implementing sustainable practices to help improve Dallas' air quality. Through Initiative-guided voluntary projects, the Initiative aims to achieve measurable environmental benefits--particularly the reduction of air emissions, but also the significant improvement of water and land quality--while simultaneously contributing to the vitality of the Dallas economy and the quality of life of Dallas' citizens. In the longer term, the Initiative aims to create a successful and reproducible program that serves as a model for other cities.
